Chatri Bazar , Lashkar , Gwalior (M.P.)

SKILLS

- C / C++
- Python
- HTML , CSS , JS , Nodejs , Expressjs , React , php
- Pandas , Numpy , sklearn , BeautifulSoup .
- MongoDB , SQL .

EDUCATION

- **B-Tech** 2021-2025 9.14 CGPA

Persuaing my B-Tech from Computer Science and design branch .

**Madhav Institute of
Technology and Science**

- **Class XII** 2020-2021 95.4 %

Kiddy's Corner H.S. School

- **Class X** 2018-2019 95.2 %

Kiddy's Corner H.S. School

PROFILE

Proficient in various programming languages including C, C++, Python with experience in developing web applications with the help of MERN , designing databases using MongoDB , SQL . Also I will able to extract meaningfull information from data for business . Collaborative team player with a proven track record of delivering high-quality work and achieving exceptional results.

PROJECTS

• Heart Failure prediction

Here i predict about heart failure prediction using linear regression , logistic regression , random forest and getting 8.5 score . Also visualize and clean the dataset .

Link :

https://colab.research.google.com/drive/1gTh_F2nPOSwNsFdFI6KeTyrRYk7w68-g?usp=sharing

• Online Shopping Website

Here i prepare a online shopping website using MERN . In this i included various functionality like login , signup , add to cart , payment gateway using stripe .

CERTIFICATION

- NPTEL - Ethical Hacking (IIT Kharagpur) .
- NPTEL - Cyber Security and Privacy (IIT Madras) .
- CodeGeeks Hybrid Hackathon .
- Bharat Intern - Full Stack Web Development .
- Python Programming & its Applications .
- Codathon organized by IETE Students Forum .
